California Proposition 65 Compliance Statement

CML Micro is dedicated to ensuring the safety and regulatory compliance of our products. To the best of our knowledge, our products comply with the requirements of California Proposition 65 (formally known as the Safe Drinking Water and Toxic Enforcement Act of 1986).

Proposition 65 requires businesses to provide clear warnings if their products expose individuals to chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm.

Based on the information currently available to us, our products do not contain any listed chemicals at levels that would necessitate a Proposition 65 warning. In the event that any product contains such substances above the established thresholds, we will provide appropriate warnings in full accordance with California law.

For more details about Proposition 65, please visit: www.P65Warnings.ca.gov
